Dear POS members and friends.

A special thank you to our May speaker, OFE's Carlos Cahiz whom gave one of the best meetings we have in a long time on chemical cocktails, treatments, potting mixtures, pots, repotting, when and how, symptoms and treatment, how and when to water. So much valuable information. Our group was totally engaged and energized. This is the information that helps us to grow award winning plants.

**Our June anniversary meeting will be a movie, pizza night and orchid swap. Everyone had such a great time the last time we did a swap. If you would like to participate bring 1 or 2 orchids you would like to swap for another orchid. Pizza and beverages will be provided by the club.**

Our membership registration forms must be in and paid up by June 7th to receive a membership plant. If you have not done so already or have not been contacted, please RSVP or notify if you will be attending the June meeting and renewing your membership by **May 30** so that we may preorder the plants and enough pizza.

**We will only have enough plants for membership preorder and paid membership as of May 30.**

Please send email to [POSORCHIDS@GMAIL.COM](mailto:POSORCHIDS@GMAIL.COM) or Text message your info to (954)401-3171.

Hello members of Plantation Orchid Society! It's been a while since we've had an in-person meeting so we thought it might be fun to do something new, but orchid related... without leaving home. We've put together a few links to YouTube orchid videos... a great way to learn more about orchids! You can do this on your smartphone, tablet or computer.

**Miss Orchid Girl**- from repotting, to new blooms, experiments with different media... watering, fertilizing, etc.

Rick really knows orchid nutrition, and orchids in general-from feed to repotting, light and temperature, etc.

**Rogers Orchids**- In addition to his regular videos, he does a Sunday chat video each week and on the 8<sup>th</sup> of every month he does a "What's in Bloom" video. He's very knowledgeable and frequently talks about everything from orchid culture, pests, and everything in between.
